@ICPC_PE Q1. What is your assessment of the citizens’ engagement in the fight against corruption so far?

1. It has been encouraging. Citizens are participating actively on social media and other platforms. We have noticed a surge in the interest to register with our Volunteer Corp (NAVC).

Q2 How effective has been the campaigns against corruption in State and LGAs since ICPC are not present everywhere in terms of office location #VoicesAgainstCorruption

11:38 AM - Apr 24, 2018

2. We are carrying out some enlightenment activities in the states, especially with NYSC members & with the state govt. themselves. e.g Anti-corruption summit. It is yielding results as public servants are becoming more aware of many forms of corruption. #VoicesAgainstCorruption

11:42 AM - Apr 24, 2018
3. We also held citizens engagement forum in Local Governments in more than 15 States. #VoicesAgainstCorruption

4. Just yesterday, we conducted a sensitization workshop for newly elected Chairmen of the 44 Local Govt. Councils in Kano State. #VoicesAgainstCorruption

5. One of our challenges is the lack of resources we require to reach out to all citizens as we would want. The success is that most corruption cases the Commission is prosecuting came through petitions from the public. #VoicesAgainstCorruption
Q4. What activities have you carried out with the coalition of Civil Society Organizations in Nigeria to promote the fight against corruption in Nigeria? #VoicesAgainstCorruption
